DARING FLIGHT OF FOUR IMMIGRANTS

About to Be Deported, They Leaped Into River and Swam Ashore.

Four undesirable immigrants, three Hungarians and a Spaniard, who had been ordered deported by the United States immigration officials, escaped from a compartment in which they were guarded, on the Cunard line pier No. 52, North River, on Dec. 7, according to an announcement made to-

Their escape was remarkable, and some details of it remain to be explained. They crawled through a small

porthole in the wall of the pier, and then dropped thirty feet into the water

was drowned, for clothes belonging to one of the fugitives was found floating in the slip afterward. Those who

reached land safely are now supposed to be in the city and the police have been given descriptions of them, and asked to recover them.

Immigration Commissioner Watchorn has already placed the matter in the hands of the federal authorities, and United States District-Attorney Burnett is preparing to bring charges against the Cunand Company for permitting the immigrants to escape. The Immigration laws provide a penalty of \$300 for each immigrant thus escaping, when he had been ordered excluded from the country.

The three Hungarians, Joseph Magy, Carl Mauser and Janos Vertellka, are well known to the police of Buda-Festh, and it is said that they were to be arrested there for complicity in the murder of a woman when they were returned to the Hungarian authorities. The Spanlard, Francisco Fernande.

They were deported because they were stowaways.

The Spaniard, Francisco Fernando, was ordered deported on the charge of attempting to violate the contract labor law respecting aliens.

We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature ap-pears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

ation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting \(\text{tp}\) and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of hat Hetchire

Have you visited our establishment since its transformation into an Ice Palace? Countless glistening icycles form a vista as you enter the store, while in the distance looms up a most realistic arctic scene, representing a vessel imprisoned by huge ice floes. The arctic sun in all its golden splendor is marvellously portrayed. be seen a group of fur-clad mariners making merry midst towering scehergs. No one should miss the opportunity to view this magnificent spectacle, as its like has never been seen anywhere. The immense picture was painted under the personal supervision of a former arctic explorer, and is, therefore, an accurate reproduction of a scene in the Far

BRING THE LITTLE ONES to see the Beautiful Window Display. One section is devoted entirely toys, another contains a scene from Venice, made entirely of handkerchiefs, showing the Bridge of Sighs and a full-sized gondola un derneath. Over 120,000 handkerchiefs were used to construct this master-piece. In another window may be seen an immense web, the abode of a very active spider who is striving to enmesh a fly, while the adjoining window is given up to the Dolls' Charity Ball. The tiny couples glide about in a most graceful fashion to the delight of thousands who view the spectacle daily.
